1 Licia Heath
Independent for Wentworth

Dear voter,

I am running to be the next Member for Wentworth because I'm tired of witnessing politicians focused on attaining more in their career, and in the process, less for the country. As a nation, we face some tough challenges: worsening climate change, deepening voter disenchantment, unstable parliamentary processes, and a political class held hostage to donors and vested interests.

I refuse to stand by any longer and watch our current politicians create a society I don't believe in. The only way we can short-circuit the current political free-fall is for more moderate, un-aligned people like myself to be involved in the political process.

I'm done with watching MPs in the major parties vote against their conscience. I promise to be a strong and independent voice for our community and to do only what's best for it and our country, every time.

Please join me in the fight to improve our political landscape.

Licia Heath
Independent for Wentworth

I am a mother, a businesswoman, a community organiser and a Wentworth resident. For the past two years, I've led the CLOSEast campaign fighting for a much-needed second public high school in the electorate. I've held community forums and worked collaboratively with State MPs, local Councils, mayors and planning teams, as well as school P&Cs, to find solutions in the best interests of local families and residents.

I'm also a Director of Women for Election Australia, a non-partisan, not-for-profit group aimed at supporting more women to take up roles in local, state and federal government.

Being involved with politics -- but not in politics -- has given me insight into the challenges facing our country and the steps we need to take to resolve them.
